 Elimination: bladder and bowel care; support and intervention with toileting; privacy and dignity; collect and observe specimens of urine and stool.  
 Monitoring and supporting sleep and comfort levels.  
 Medicines Management: safe oral medicines administration.  
 Documenting and reporting care; reporting changes.  
 Reflection; academic writing; using evidence; literature searching; referencing.

## Learning Outcomes

Outcome Number	Description
01	Demonstrate skills in a range of nursing interventions to meet peoples needs for safe, dignified, effective care and identify the parameters of normal vital signs.
02	Discuss the communication skills and strategies required for providing and monitoring care for a diverse range of people.
03	Demonstrate skills in safe medicines administration.
04	Demonstrate skills in reflection, literacy and accurate data management for safe care delivery, record keeping and portfolio development.

## Learning, Teaching and Assessment Strategy

Students will develop understanding and application of their knowledge through the use of lectures and seminars, in a blended approach involving face to face learning and online synchronous and asynchronous activities which will be evidence based and research informed. These will facilitate the achievement of LO 1,2,3. Practical sessions will facilitate application of knowledge and skills development LO 4.

Learning will be supervised in Hub and Spoke practice placements to develop knowledge and skills and gain competence in clinical skills. Supervised learning in practice will also facilitate application of theory to practice and reflection on practice. Web-based resources including the VLE will support achievement in all learning outcomes and application to practice.

The apprentice must meet all the required standards when measured against each individual learning outcome for the module (as mapped below):

Nursing Associate\* Standard: K4, K22, K27, S2, S3, S4, S5, S7, S17, S24, S26, S30, B1, B2, B3

Formative feedback will be available through a tutorial session.

The reflective coursework will assess LO 1,2,3. The Practice Attainment Document (PAD) will assess LO 4.

Mode of Assessment			
Type	Method	Description	Weighting
Summative	Coursework - Written	Reflection on the Nursing Associate role in care delivery (1500 words)	100%
Summative	Coursework - Portfolio/e-portfolio	Practice attainment document (PAD) [pass/fail]	0%

*Please note:*

*This module descriptor has been published in advance of the academic year to which it applies. Every effort has been made to ensure that the information is accurate at the time of publication, but minor changes may occur given the interval between publishing and commencement of teaching. Upon commencement of the module, students will receive a handbook with further detail about the module and any changes will be discussed and/or communicated at this point.*
